### **Admissions Policy**

Some applications to the preparatory year in the International Baccalaureate Diploma Programme at Växjö Katedralskola, beginning in the academic year 2018, may have the requirement of passing grades in Swedish waived.

This applies to students applying from IBMYP and international schools with English as their language of study.

Other conditions for applicants include the full completion of 9th grade studies, results in placement tests, and considered good results in the preparatory year and in the Diploma.

When waiving the Swedish language requirement, Växjö Katedralskola does not offer tuition in Swedish. Students may apply for the TISUS test to complete requirements for Swedish universities.

This waiver is limited to small numbers of applicants and admissions are decided by the IBDP Head of School in consultation with the IBDP Coordinator.
